

# Wilcox Site Update

# Wilcox Residential Sampling and Fencing

# Wilcox Residential Sampling and Fencing

- Fencing was completed on church and residential (formally Lane's) property
- START (Weston) anticipates completing data packages mid-late August
- Validation of data is anticipated to be completed by mid July

# Wilcox RI/FS – Phased Approach

START

- Phase 1 - ERT
  - Field Screening
- Phase 2 – RAC/ERT
  - Focused RI Data Collection
- Phase 3 - RAC
  - Focused FS

July/August 2015

March/April 2016

Fall 2016

# Wilcox RI Phase 1

## Purpose

- Detailed CSM
- Focus subsequent Phase 2 RI Field work

## Objectives

- Subsurface bedrock
- Subsurface structures/utilities
- Narrow COC list
- 3D imagery of waste

# Wilcox RI Phase 1

- Geophysics
  - Electromagnetic
  - Seismic
- Direct Sensing
  - CPT/LIF
- Soil Screening
  - pH, metals, PAHs, TPH

July - August

November – December

November - December

# Wilcox RI Phase 2

## Purpose

- Focus Field Sampling
- Focus Risk Assessments
- Define Decision Units and sampling strategies
- Real-time interpretation and adaptive sample planning

## Objectives

- Reduce Cost
- Reduce Field Time
- Develop better contamination volume and cost estimates
- Minimize RA surprises
- Minimize potential RA scope changes

# Wilcox RI Phase 3 - FS

- Support focused technology screening
- Provide detailed technology descriptions
- Develop better technology cost estimates
